

CAREER DEVELOPMENT

Introduction

Career development is a planning and creating target toward one's own continuous process of personal objectives. Here in UTM, students were exposed to a various knowledge that essential for them to have before entering a new phase which is a working environment. Several experience seniors and alumni were invited to give a speech to give an exposure to UTM's first year student.

Executive Summary

PPG is a company that manufactures paints, coatings, and specialty materials globally. Its headquarters are located in Pittsburgh, and it operates in around 70 countries while Mr. Habib is an alumni of UTM working in an ICT industry.

What I learned in Get Me Hired Talk???

- Create useful CV and Resume
- More exposure about getting a computer literacy license, skills and certificate from websites
- The importance of joining activities in university to make yourself unique when applying jobs

What I learned in PPG Talk???

- The value of applying both hard and soft skills to make decisions and solve problems
- Having a high qualifications skills to make myself more valuable to apply jobs
- Importance of attitude and mindset to get through issues.

Reflection & Way Forward

I discovered how applications like GitHub and LinkedIn are very crucial for students to showcase their skills to secure a job. Additionally, I considered joining activities related to our field offer lots of experience and knowledge for strenghtening leadership and improving teamwork. Furthermore, I think ICT is essential in industry for building innovation, efficiency, security, and competitiveness. It gives people the power to significantly alter how businesses run and engage with their clients.

Moreover, I determined to set a clear goals for my future. As I gaining my experience, creating portfolios showcasing my work, projects, and achievements is necessary for me to achieve my goal. Plus, building networks as much as I can by joining online communities and doing a good work while doing assignments. On top of that, I aim to secure a better jobs and will use my internship experience wisely.
